Reader's Note

We hope this newsletter finds you in good health and high spirits. As we navigate through the industrial landscape, we are excited to share the latest updates on our progress with the Industrial Skills Framework units. Your continued support and engagement have been instrumental in driving our commitment to excellence in human capital development.

In the spirit of Deepavali, let us celebrate the diversity that enriches our community and the unity that binds us together. May this festival foster a sense of togetherness and create memories that linger in our hearts for years to come.

Vol. 38 November 2023

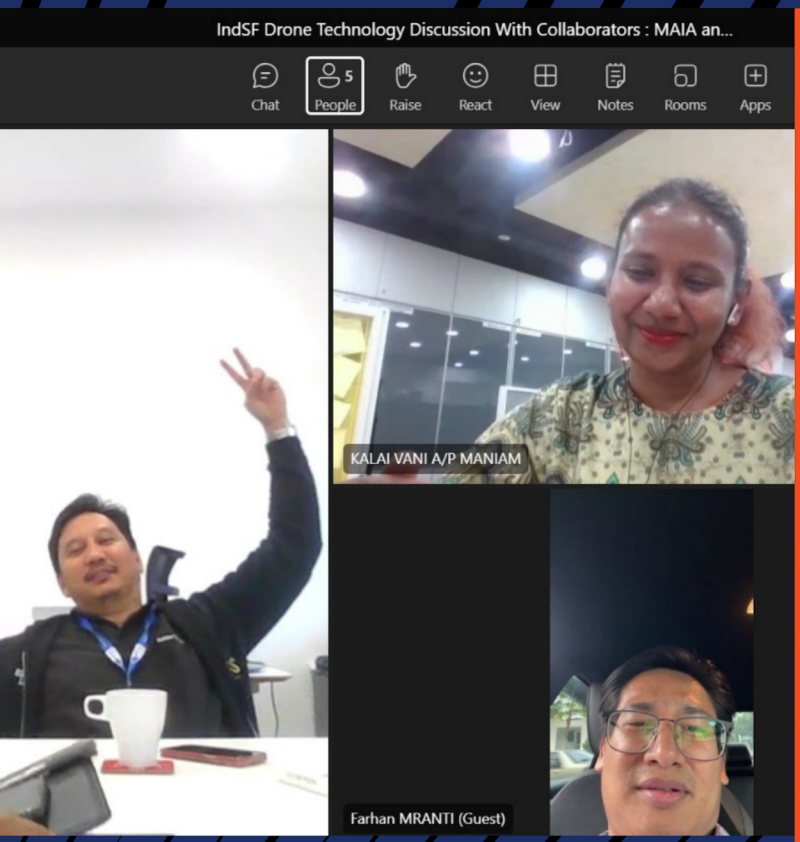

IndSF Development

IndSF Telecommunications 4th Workshop

Date: 23 November
Time: 9.00am - 3.00pm

We are in the process of collecting inputs to finalize the 33 identified job roles. As of now, discussions have been held on 28 out of the 33 job positions, signifying an 85% completion rate. The workshop was attended by four Subject Matter Experts (SMEs) specializing in Radio Network Facilities.

MRANTI & MAIA IndSF Drone Technology Validation Process Meeting

Date: 30 November
Time: 6.00pm - 7.00pm

Discussions during the meeting revolved around validating the Industrial Skills Framework (IndSF) for Drone Technology. This pivotal session marked a significant milestone as the first skill-based document within the IndSF. A total of 10 job positions have been identified for this framework.

IndSF Development

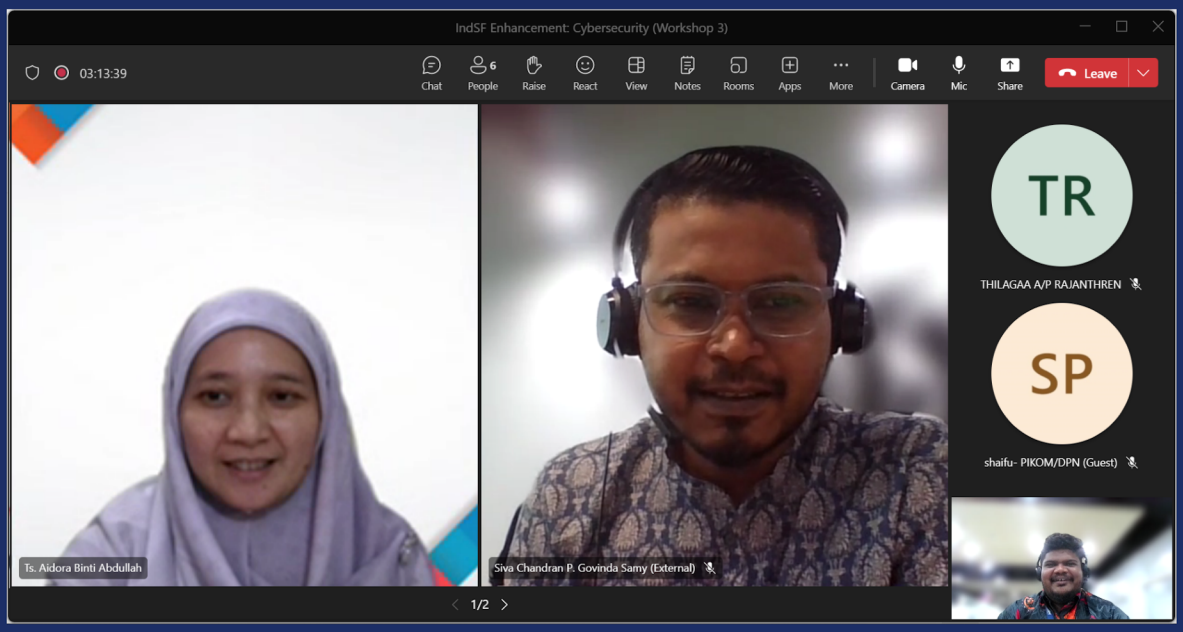

IndSF Agriculture Non-Perennial Crops Validators Briefing Session

Date: 14 - 15 November
Time: 10.00am - 11.00am / 4.00pm - 5.00pm

A briefing session for validators was conducted to facilitate the exchange of vital information regarding their roles and responsibilities. There was a total of three (3) validators appointed to validate eight (8) job positions; Mr. Rashidi from FGV, Mr. Wesley Tan from Aqina Group and Mr. Chow Chin Siew from FMFFA. The main objective of this session was to improve validators' understanding of the development process of the IndSF Agriculture Non-Perennial Crops document, ultimately preparing them for efficient validation process.

IndSF Enhancement

IndSF Digital Technology: Cybersecurity

Date: 9 November
Time: 3.00pm - 7.00pm

An online meeting was convened among the Subject Matter Experts (SMEs) of IndSF Cybersecurity, resulting in the finalization of 22 crucial job positions. The virtual gathering served as a dynamic platform for the SMEs to engage in insightful discussions, leveraging their collective expertise to meticulously craft and refine job descriptions.

IndSF Enhancement

IndSF Apparel & Footwear Manufacturing Discussion

Date: 27 November
Time: 3.30pm - 5.00pm

An IndSF Apparel & Footwear Discussion was conducted to gather insights and address inputs regarding validated job positions for training programs focused on Production in Apparel & Footwear Manufacturing. The endorsement session for finalizing the document is scheduled soon.

Currently, all sixty-five (65) job positions have undergone discussion and validation, progressing towards the endorsement stage. The discussion involved Subject Matter Experts (SMEs) and Validators specializing in Apparel and Footwear Manufacturing. Tentatively, the endorsement is set to take place on the 18th of December 2023.

Sectorial Training Committee

STC Construction 03/2023 Meeting

Date: 3 November
Time: 10.00am - 12.00pm

The 3rd STC Construction Meeting revolved around gaining insights and strategic input to identify skills and training needs for both established and emerging technologies in the construction industry. Additionally, discussions on the current state of training programs in the construction sector took place. The ongoing process includes progressively compiling inputs to create a comprehensive database/action plan based on the discussions held during the meeting.

Sectorial Training Committee

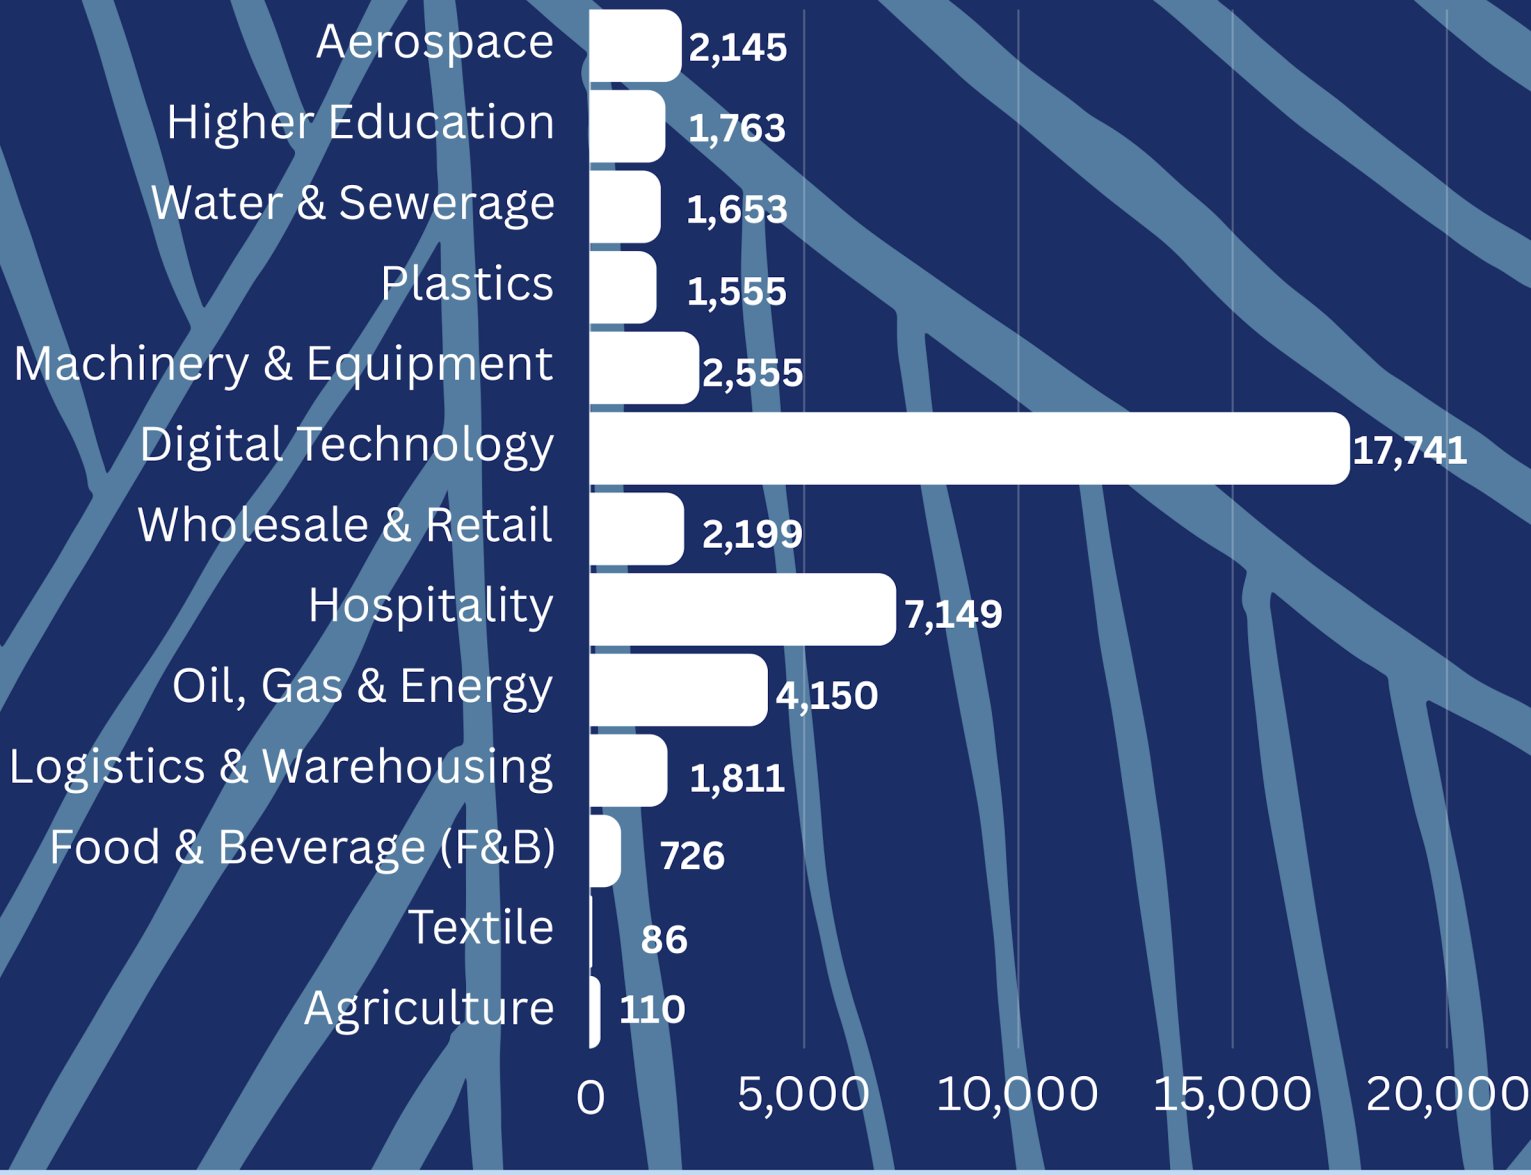

STC Textile, Apparel & Footwear 03/2023 Meeting

Date: 07 November
Time: 2.30pm - 4.30pm

The focus of the 3rd STC Textile, Apparel & Footwear Meeting was to gather insights and strategic input aimed at identifying skills and training requirements for both established and emerging technologies within the industry. In-depth discussions were conducted on the current training status in the Textile, Apparel & Footwear sector, with a particular emphasis on analyzing the National Training Index (NTI) 2022 data related to the industry. The ongoing process involves compiling inputs from these discussions to develop a comprehensive database and action plan.

IndSF Downloads

We're thrilled to share our progress in making the Industrial Skills Framework (IndSF) documents more accessible. We've seen a notable increase in downloads, with November 2023 reaching 1,213 downloads. This demonstrates growing recognition of the IndSF's importance in Malaysia's human capital development. In 2023, we've achieved a total of 43,747 downloads, a significant milestone. Our continous engagement with key industry players through webinars and workshops aims to raise awareness of these crucial documents. Looking ahead, our unwavering commitment to fostering collaboration and embracing innovation propels our roadmap to develop new IndSF documents in collaboration with diverse industries.
