Greetings,

This month's edition of our Skills Framework Newsletter highlights the ongoing progress in developing and enhancing the Industrial Skills Framework (IndSF). These advancements continue to support workforce reskilling and upskilling, helping workers remain competitive in today's rapidly changing job market.

At IndSF, we believe the initiative plays a crucial role in guiding career development and ensuring industry professionals stay current with sectoral advancements. To this end, we have actively promoted our IndSF documents to the public, with the support of our Sectoral Training Committee (STC) members.

Recently, HRD Corp, in partnership with STC Hospitality, launched the IndSF hospitality documents at the Hospitality Leadership Conference 2.0. The event was attended by Deputy Minister of Tourism, Arts & Culture, YB Khairul Firdaus Akbar Khan, who presented tokens of appreciation to our valued collaborators, the Malaysian Association of Hotels (MAH) and the Malaysia Budget Hotel Association (MyBHA).

We hope you find this edition both informative and valuable. Stay tuned for further updates, and thank you for your ongoing interest and support!

Sectorial Training Committees (STCs)

The Sectorial Training Committees (STCs) are key partners of the IndSF initiative. Comprised of industry representatives from various organisations within a specific sector, STC members collaborate to address human capital development challenges. Through regular meetings, they also develop frameworks to encourage reskilling and upskilling of the workforce – equipping them with the necessary skills to thrive in an ever-evolving industry landscape.

The IndSF Unit is currently in the process of scheduling the second meeting for all 26 STCs. Please stay tuned for further updates.
